

**SECOND CORRECTIVE ACTION PLAN
ASSESSMENT**
of

DESOTO CORRECTIONAL INSTITUTION

for the

Physical and Mental Health Survey
Conducted April 15-17, 2025

CMA STAFF
Lynne Babchuck, LCSW

Distributed on May 4, 2026

I. Overview

On April 15-17, 2025, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Desoto Annex Correctional Institution (DESAN). The survey report was distributed on May 22, 2025. In June 2025, DESAN submitted, and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the DESAN survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days. Items II and III below describe the outcome of the CMA's evaluation of the institution's efforts to address the survey findings.

Summary of CAP Assessments for Desoto Annex Correctional Institution

CAP #	CAP Assessment Date	Total # Survey Findings	Total # Open Findings	Total # Findings Closed
1	12/1/25	17	3	14
2	4/13/26	3	1	2

II. Physical Health Assessment Summary

The CAP closure files revealed sufficient evidence to determine that 2 of the 3 physical health findings were corrected. One physical health finding remains open.

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
<u>Endocrine Clinic Chronic Illness Clinic:</u> Screen 6: A dilated fundoscopic examination is completed yearly for diabetic inmates.		X			

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
<u>PREA Medical Review:</u> Screen 4: Prophylactic treatment and follow up care for STIs are given as indicated.	X				
Screen 6: Repeat STI testing is completed as required.	X				

III. Mental Health Assessment Summary

A. Main Unit

All mental health findings closed at the first CAP assessment.

IV. Conclusion

Until appropriate corrective actions are undertaken by DESAN staff and the results of those corrections reviewed by the CMA, this CAP will remain open. As some of the necessary steps to correct the remaining finding requires further institutional monitoring, closure may take as long as three months. Follow-up assessment by the CMA will most likely take place through an off-site evaluation.
