

**SIXTH CORRECTIVE ACTION PLAN
ASSESSMENT**

of

CENTRAL FLORIDA RECEPTION CENTER - EAST UNIT

for the

Physical and Mental Health Survey
Conducted July 11-12, 2023

CMA STAFF

Distributed on January 14, 2026

I. Overview

On July 11-12, 2023, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Central Florida Reception Center Correctional Institution – East Unit (CFRC-East). The survey report was distributed on August 22, 2023. In September 2023, CFRCEU submitted, and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the CFRC-East survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days. Items II and III below describe the outcome of the CMA's evaluation of the institution's efforts to address the survey findings.

Summary of CAP Assessments for Central Florida Reception Center – East Unit

CAP #	CAP Assessment Date	Total # Survey Findings	Total # Open Findings	Total # Findings Closed
1	3/6/24	39	14	25
2	6/21/24	14	6	8
3	10/18/24	6	4	2
4	1/30/2025	4	1	3
5	7/21/2025	1	1	0
6	12/22/25	1	1	0

II. Physical Health Assessment Summary

The CAP closure files revealed sufficient evidence to determine that the remaining physical health finding was not corrected. One physical health finding remains open.

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
<p><u>Medication And Vaccination Administration:</u> Screen 3: If the inmate missed medication doses (3 consecutive or 5 doses within one month), there is evidence of counseling for medication non-compliance</p>		X			

III. Mental Health Assessment Summary

All mental health findings were closed in the fourth corrective action plan assessment.

IV. Conclusion

Until appropriate corrective actions are undertaken by CFRC-East staff and the results of those corrections reviewed by the CMA, this CAP will remain open. As some of the necessary steps to correct findings require further institutional monitoring, closure may take as long as three months. Follow-up assessment by the CMA will most likely take place through an off-site evaluation.
