BACKGROUND AND SCOPE

The Correctional Medical Authority (CMA) is required, per § 945.6031(2) F.S., to conduct triennial surveys of the physical and mental health care systems at each correctional institution and report survey findings to the Secretary of Corrections. The process is designed to assess whether inmates in Florida Department of Corrections (FDC) institutions can access medical, dental, and mental health care and to evaluate the clinical adequacy of the resulting care.

The goals of institutional surveys are:

- 1) to determine if the physical, dental, and mental health care provided to inmates in all state public and privately operated correctional institutions is consistent with state and federal law, conforms to standards developed by the CMA, is consistent with the standards of care generally accepted in the professional health care community at large.
- 2) to promote ongoing improvement in the correctional system of health services; and,
- 3) to assist the Department in identifying mechanisms to provide cost effective health care to inmates.

To achieve these goals, specific criteria designed to evaluate inmate care and treatment in terms of effectiveness and fulfillment of statutory responsibility are measured. They include determining whether:

- Inmates have adequate access to medical and dental health screening and evaluation and to ongoing preventative and primary health care.
- Inmates receive adequate and appropriate mental health screening, evaluation, and classification.
- Inmates receive complete and timely orientation on how to access physical, dental, and mental health services.
- Inmates have adequate access to medical and dental treatment that results in the remission of symptoms or in improved functioning.
- Inmates receive adequate mental health treatment that results in or is consistent with the remission of symptoms, improved functioning relative to their current environment and reintegration into the general prison population as appropriate.
- Inmates receive and benefit from safe and effective medication, laboratory, radiology, and dental practices.
- Inmates have access to timely and appropriate referral and consultation services.
- Psychotropic medication practices are safe and effective.
- Inmates are free from the inappropriate use of restrictive control procedures.
- There is sufficient documentation to provide a clear picture of the inmate's care and treatment.
- There are enough qualified staff to provide adequate treatment.

METHODOLOGY

During a multi-day site visit, the CMA employs a standardized monitoring process to evaluate the quality of physical and mental health services provided at this institution, identify significant deficiencies in care and treatment, and assess institutional compliance with FDC's policies and procedures.

This process consists of:

- Information gathering prior to monitoring visit (Pre-survey Questionnaire)
- On-site review of clinical records and administrative documentation
- Institutional tour
- Inmate and staff interviews

The CMA contracts with a variety of licensed community and public health care practitioners including physicians, psychiatrists, dentists, nurses, psychologists, and other licensed mental health professionals to conduct these surveys. CMA surveyors utilize uniform survey tools, based on FDC's Office of Health Services (OHS) policies and community health care standards, to evaluate specific areas of physical and mental health care service delivery. These tools assess compliance with commonly accepted policies and practices of medical record documentation.

The CMA employs a record selection methodology using the Raosoft Calculation method. This method ensures a 15 percent margin of error and an 80 percent confidence level. Records are selected in accordance with the size of the clinic or assessment area being evaluated.

Compliance scores are calculated by dividing the sum of all yes responses by the sum of all yes and no responses (***rating achieved/possible rating***) and are expressed as a percentage. Institutional tours and systems evaluations are scored as compliant or non-compliant. Individual screens with a compliance percentage below 80%, as well as tour and systems requirements deemed non-compliant will require completion of the CMA's corrective action process (CAP) and are highlighted in red.

INSTITUTIONAL DEMOGRAPHICS AND STAFFING

Hardee Correctional Institutional (HARCI) houses male inmates of minimum, medium, and close custody levels. The facility grades are medical (M) grades 1, 2, and 3, and psychology (S) grades 1 and 2. HARCI consists of a Main Unit and Work Camp.¹

Institutional Potential and Actual Workload

Main Unit Capacity	1438	Current Main Unit Census	1429
Satellite Unit(s) Capacity	308	Current Satellite(s) Census	298
Total Capacity	1746	Total Current Census	1727

Inmates Assigned to Medical and Mental Health Grades

Medical Grade (M-Grade)	1	2	3	4	5	Impaired

Mental Health RN	N/A	N/A
Mental Health LPN	N/A	N/A

HARDEE CORRECTIONAL INSTITUTIONAL SURVEY SUMMARY

The CMA conducted a thorough review of the medical, mental health, and dental systems at HRCI on February 7-9, 2023. Record reviews evaluating the provision and documentation of care were also conducted. Additionally, a review of administrative processes and a tour of the physical plant were conducted.

Detailed below are results from the institutional survey of Hardee Correctional. The results are presented by assessment area and for each screen of the monitoring tool. Compliance percentages are provided for each screen.

Survey Findings Summary			
Physical Health Survey Findings	26	Mental Health Survey Findings	6

Physical Health Survey Findings

Chronic Illness Clinics

Cardiovascular Chronic Illness Clinic

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The diagnosis is appropriate for inclusion in the cardiovascular clinic	18	18	0	0	100%
2 There is evidence of an appropriate physical examination	18	16	2	0	89%
3 At each visit there is an evaluation of the control of the disease and the status of the patient	18	17	1	0	94%
4 Annual laboratory work is completed as required	18	17	1	0	94%
5 Abnormal labs are reviewed and addressed in a timely manner	15	15	0	3	100%
6 There is evidence that patients with cardiovascular disease are prescribed low-dose aspirin if indicated	13	11	2	5	85%
7 Medications appropriate for the diagnosis are prescribed	18	18	0	0	100%
8 Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	18	N/A

Endocrine Clinic Chronic Illness Clinic

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The diagnosis is appropriate for inclusion in the endocrine clinic	16	16	0	0	100%
2 There is evidence of an appropriate physical examination	16	13	3	0	81%
3 At each visit there is an evaluation of the control of the disease and the status of the patient	15	15	0	1	100%
4 Annual laboratory work is completed as required	16	16	0	0	100%
5 Abnormal labs are reviewed and addressed in a timely manner	15	15	0	1	100%
6 A dilated fundoscopic examination is completed yearly for diabetic inmates	12	9	3	4	75%
7 Inmates with HgbA1c over 8% are seen at least every 90 days	5	3	2	11	60%
8 Inmates with vascular disease or risk factors for vascular disease are prescribed aspirin	10	9	1	6	90%
9 Inmates with diabetes who are hypertensive or show evidence of (micro)albuminuria are placed on ACE/ARB therapy	13	13	0	3	100%
10 Medications appropriate for the diagnosis are prescribed	15	15	0	1	100%
11 Patients are receiving insulin as prescribed	8	8	0	8	100%
12 Patients are referred to a specialist for more in-depth treatment as indicated	1	1	0	15	100%

Gastrointestinal Chronic Illness Clinic

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The diagnosis is appropriate for inclusion in the gastrointestinal clinic	16	16	0	0	100%
2	There is evidence of an appropriate physical examination	16	16	0	0	100%
3	At each visit there is an evaluation of the control of the disease and the status of the patient	16	16	0	0	100%
4	Annual laboratory work is completed as required	16	16	0	0	100%
5	Abnormal labs are reviewed and addressed in a timely manner	15	15	0	1	100%
6	Medications appropriate for the diagnosis are prescribed	13	13	0	3	100%
7	There is evidence of hepatitis A and/or B vaccination for inmates with hepatitis C and no evidence of past infection	14	12	2	2	86%
8	Abdominal ultrasounds are completed at the required intervals	13	13	0	3	100%
9	Inmates with chronic hepatitis will have liver function tests at the required intervals	13	13	0	3	100%
10	Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	16	N/A
11	Inmates are evaluated and staged appropriately to determine treatment needs	13	13	0	3	100%
12	Hepatitis C treatment is started within the appropriate time frame	13	13	0	3	100%
13	Laboratory testing for inmates undergoing hepatitis treatment is completed at the required intervals	7	7	0	9	100%
14	Inmates undergoing hepatitis C treatment receive medications as prescribed	1	1	0	15	100%
15	Labs are completed at 12 weeks following the completion of treatment to assess treatment failure	1	1	0	15	100%

General Chronic Illness Clinic

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Record	YES	NO	N/A	
1	The inmate is enrolled in all clinics appropriate for their diagnosis	15	15	0	0	100%
2	Appropriate patient education is provided	15	15	0	0	100%
3	The inmate is seen at intervals required for their M-grade or at intervals specified by the clinician	15	7	8	0	47%
4	There is evidence that labs are available prior to the clinic visit and are reviewed by the clinician	15	13	2	0	87%

General Chronic Illness Clinic Discussion:

Screen 3: In seven records, M-3 inmates were scheduled at intervals greater than 90 days, with most being seen approximately every six months. In one record, an M-3 inmate had not been seen for a clinic visit since 2/13/21.

Miscellaneous Chronic Illness Clinic

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The diagnosis is appropriate for inclusion in the miscellaneous clinic	15	15	0	0	100%
2	There is evidence of an appropriate physical examination	15	15	0	0	100%
3	Medications appropriate for the diagnosis are prescribed	14	14	0	1	100%
4	At each visit there is an evaluation of the control of the disease and the status of the patient	15	15	0	0	100%
5	Abnormal labs are reviewed and addressed in a timely manner	2	2	0	13	100%
6	Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	15	N/A

Neurology Chronic Illness Clinic

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The diagnosis is appropriate for inclusion in the neurology clinic	9	9	0	0	100%
2	There is evidence of an appropriate physical examination	9	9	0	0	100%
3	Annual laboratory work is completed as required	9	9	0	0	100%
4	Abnormal labs are reviewed and addressed in a timely manner	9	9	0	0	100%
5	At each visit there is an evaluation of the control of the disease and the status of the patient	9	9	0	0	100%
6	Medications appropriate for the diagnosis are prescribed	9	9	0	0	100%
7	Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	9	N/A

Oncology Chronic Illness Clinic

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The diagnosis is appropriate for inclusion in the oncology clinic	2	2	0	0	100%
2 There is evidence of an appropriate physical examination	2	1	1	0	50%
3 Appropriate labs, diagnostics and marker studies are performed as clinically appropriate	2	2	0	0	100%
4 Annual laboratory work is completed as required	2	2	0	0	100%
5 Abnormal labs are reviewed and addressed in a timely manner	2	2	0	0	100%
6 At each visit there is an evaluation of the control of the disease and the status of the patient	2	2	0	0	100%
7 Medications appropriate for the diagnosis are prescribed	2	1	1	0	50%
8 Oncological treatments are received as prescribed	0	0	0	2	N/A
9 Patients are referred to a specialist for more in-depth treatment as indicated	1	1	0	1	100%

Oncology Chronic Illness Clinic Discussion:

Screen 2: In one record, the physical examination indicated that the inmate had “full range of motion without weakness,” although he wore a back brace and ambulated with a cane.

Screen 7: In this record, an inmate with a history of bladder cancer, abdominal aortic aneurysm, and hypertension was prescribed Afrin for four months. CMA surveyors expressed concern that the medication may be contraindicated, as it is not recommended to be used more than three days and increased blood pressure is a reported side effect.

Respiratory Chronic Illness Clinic

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The diagnosis is appropriate for inclusion in the respiratory clinic	15	15	0	0	100%
2	Inmates with moderate to severe reactive airway disease are started on anti-inflammatory medication	8	8	0	7	100%
3	Medications appropriate for the diagnosis are prescribed	14	13	1	1	93%
4	A peak flow reading is recorded at each visit	15	13	2	0	87%
5	There is evidence of an appropriate physical examination	15	12	3	0	80%
6	At each visit there is an evaluation of the control of the disease and the status of the patient	15	14	1	0	93%
7	Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	15	N/A

Tuberculosis Chronic Illness Clinic

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The inmate has a diagnosis of tuberculosis or latent tuberculosis infection	4	4	0	0	100%
2	There was no evidence a chest X-ray was completed	4	3	1	0	75%
3	There is evidence of initial and ongoing education	4	2	2	0	50%
4	There is evidence of monthly nursing follow-up	4	1	3	0	25%
5	Laboratory testing results are available prior to the clinic visit and any abnormalities reviewed in a timely manner	3	3	0	1	100%
6	AST and ALT testing are repeated as ordered by the clinician	4	4	0	0	100%
7	CMP testing is completed monthly for inmates with HIV, chronic hepatitis or are pregnant	0	0	0	4	N/A
8	Inmates with adverse reaction to LTBI therapy are referred to the clinician and medications are discontinued	0	0	0	4	N/A
9	The appropriate medication regimen is prescribed	4	4	0	0	100%
10	The inmate receives TB medications as prescribed	4	4	0	0	100%
11	The Inmate is seen by the clinician at the completion of therapy	0	0	0	4	N/A
12	Documentation of the CIC visit includes an appropriate physical examination	4	3	1	0	75%
13	Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	4	N/A

Tuberculosis Chronic Illness Clinic Discussion:

Screen 4: Nurses are to follow patients in the tuberculosis clinic on a monthly basis to document treatment compliance and medication side effects. Prompt attention is required for those with elevated AST/ALT levels, visual symptoms, or other adverse reactions to the medication regimen. In two records, monthly follow-up had not been completed since September 2022. In one record, the inmate had not been evaluated since October 2022. CMA surveyors expressed concern that delays in the detection of adverse reactions could negatively impact inmate health outcomes.

Episodic Care

Emergency Services

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 Potentially life-threatening conditions are responded to immediately	17	17	0	1	100%
2 The emergency assessment is appropriate for the presenting complaint/condition and completed in its entirety	18	18	0	0	100%
3 Vital signs including weight are documented	18	18	0	0	100%
4 There is evidence of appropriate and applicable patient education	17	17	0	1	100%
5 Findings requiring clinician notification are made in accordance with protocols	14	14	0	4	100%
6 Follow-up visits are completed timely	9	9	0	9	100%
7 Clinician's orders from the follow-up visit are completed as required	14	14	0	4	100%
8 Appropriate documentation is completed for patient's requiring transport to a local emergency room	5	5	0	13	100%
9 Inmates returning from an outside hospital are evaluated by the clinician within one business day	5	5	0	13	100%

Outpatient Infirmary Care

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	Clinician's orders specify whether the inmate is admitted into the infirmary or placed on observation status. Admission status is appropriate for the presenting complaint/condition	10	10	0	0	100%
2	All orders are received and implemented	10	10	0	0	100%
3	The inmate is evaluated within one hour of being placed on observation status	10	10	0	0	100%
4	Patient evaluations are documented at least once every eight hours	10	8	2	0	80%
5	Weekend and holiday clinician phone rounds are completed and documented as required	2	2	0	8	100%
6	The inmate is discharged within 23 hours or admitted to the infirmary for continued care	10	10	0	0	100%
7	A discharge note containing all of the required information is completed as required	10	2	8	0	20%

Inpatient Infirmary Care

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 Clinician's orders specify whether the inmate is admitted into the infirmary or placed in observation status. Admission status is appropriate for the presenting complaint/condition	7	7	0	0	100%
2 All orders are received and implemented	7	1	6	0	14%
3 A thorough nursing assessment is completed within two hours of admission	7	7	0	0	100%
4 A Morse Fall Scale is completed at the required intervals	7	7	0	0	100%
5 Nursing assessments are completed at the required intervals	7	7	0	0	100%
6 Clinician rounds are completed and documented as required	7	6	1	0	86%
7 Weekend and holiday clinician phone rounds are completed and documented as required	6	2	4	1	33%
8 A discharge note containing all of the required information is completed as required	6	0	6	1	0%
9 A discharge summary is completed by the clinician within 72 hours of discharge	6	6	0	1	100%

Inpatient Infirmary Care Discussion:

Screen 2: In three records, vital signs were not recorded at the required intervals. In one record, there was no evidence that medication was administered as ordered. In one record, neuro checks were not completed as ordered and in the last record, an IV flush was not documented.

Sick Call Services

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The sick call request is appropriately triaged based on the complaint or condition	18	18	0	0	100%
2	The inmate is assessed in the appropriate time frame	18	16	2	0	89%
3	The nursing assessment is completed in its entirety	18	18	0	0	100%
4	Complete vital signs including weight are documented	18	17	1	0	94%
5	There is evidence of applicable patient education	18	18	0	0	100%
6	Referrals to a higher level of care are made in accordance with protocols	6	6	0	12	100%
7	Follow-up visits are completed in a timely manner	6	6	0	12	100%
8	Clinician orders from the follow-up visit are completed as required	6	6	0	12	100%

Other Medical Records Review

Confinement Medical Review

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The Special Housing Health Appraisal is complete and accurate	15	15	0	3	100%
2	All medications are continued as prescribed while in the inmate is held in special housing	6	6	0	12	100%
3	The inmate is seen in chronic illness clinic as regularly scheduled	4	4	0	14	100%
4	All emergencies are responded to within the required time frame	1	1	0	17	100%
5	The response to the emergency is appropriate	1	1	0	17	100%
6	All sick call appointments are triaged and responded to within the required time frame	13	13	0	5	100%
7	New or pending consultations progress as clinically required	1	1	0	17	100%
8	All mental health and/or physical health inmate requests are responded to within the required time frame	15	15	0	3	100%

Consultations

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	Documentation of clinical information is sufficient to obtain the needed consultation	16	16	0	0	100%
2	The referral is sent to Utilization Management in a timely manner which is consistent with the clinical needs of the inmate	16	16	0	0	100%
3	The consultation is completed in a timely manner as dictated by the clinical needs of the inmate	16	13	3	0	81%
4	The consultation report is reviewed by the clinician in a timely manner	14	14	0	2	100%
5	The consultant's treatment recommendations are incorporated into the treatment plan	14	14	0	2	100%
6	All appointments for medical follow-up and/or diagnostic testing are completed as per the consultant's recommendations	14	14	0	2	100%
7	The diagnosis is recorded on the problem list	16	16	0	0	100%
8	The "alternative treatment plan" (ATP) is documented in the medical record	1	1	0	15	100%
9	There is evidence that the ATP is implemented	1	1	0	15	100%

Medical Inmate Requests

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	A copy of the inmate request form is present in the electronic health record	17	17	0	0	100%
2	The request is responded to within the appropriate time frame	17	17	0	0	100%
3	The response to the request is direct, addresses the stated need and is clinically appropriate	17	17	0	0	100%
4	The follow-up to the request occurs as intended	17	12	5	0	71%

Medical Inmate Requests Discussion:

Screen 4: In three records, there was no evidence that the follow-up was completed as indicated in the response. In the remaining two records, the required follow-up was not completed in a timely manner.

Medication And Vaccination Administration

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The inmate receives medications as prescribed	10	10	0	1	100%
2 The Medication Administration Record (MAR) contains accurate allergy information	11	11	0	0	100%
3 Allergy information is complete and accurate for inmates on keep-on-person (KOP) medications	1	1	0	10	100%
4 If the inmate missed medication doses (3 consecutive or 5 doses within one month), there is evidence of counseling for medication non-compliance	3	3	0	8	100%
5 There is evidence of pneumococcal vaccination or refusal	10	10	0	1	100%
6 There is evidence of influenza vaccination or refusal	11	4	7	0	36%
7 There is evidence of COVID-19 vaccination or refusal	11	10	1	0	91%

Intra-System Transfers

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The health record contains a completed Health Information Arrival Transfer Summary (DC4-760A)	17	16	1	0	94%
2 The DC4-760A or a progress note indicates that the inmate's vital signs are taken	16	16	0	1	100%
3 The inmate's medications reflect continuity of care	9	9	0	8	100%
4 The medical record reflects continuity of care for inmate's pending consultations	0	0	0	17	N/A
5 For patients with a chronic illness, appointments to the specific clinic(s) took place as scheduled	8	8	0	9	100%
6 Special passes/therapeutic diets are reviewed and continued	5	4	1	12	80%
7 A clinician reviews the health record and DC4-760A within seven (7) days of arrival	16	7	9	1	44%

Periodic Screenings

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The periodic screening encounter is completed within one month of the due date	11	7	4	0	64%
2	All components of the screening are completed and documented as required	11	3	8	0	27%
3	All diagnostic tests are completed prior to the periodic screening encounter	11	7	4	0	64%
4	Referral to a clinician occurs if indicated	4	4	0	7	100%
5	All applicable health education is provided	11	11	0	0	100%

Periodic Screenings Discussion:

Screen 2: In eight records, current weight was not compared to previous weight.

Screen 3: In two records, there was no evidence that the required diagnostic testing was completed. In the remaining two records, diagnostic testing was completed after the periodic screening encounter.

PREA

		COMPLIANCE SCORE				
SCREEN QUESTION		Total Applicable Records	YES	NO	N/A	Compliance Percentage
1	The Alleged Sexual Battery Protocol is completed in its entirety	6	6	0	0	100%
2	If the perpetrator is known, orders will be obtained from the clinician to complete the appropriate sexually transmitted infection (STI) testing	0	0	0	6	N/A
3	There is documentation that the alleged victim was provided education on STIs	4	2	2	2	50%
4	Prophylactic treatment and follow-up care for STIs are given as indicated	1	0	1	5	0%
5	Pregnancy testing is scheduled at the appropriate intervals for inmates capable of becoming pregnant	0	0	0	6	N/A
6	Repeat STI testing is completed as required	3	0	3	3	0%
7	A mental health referral is submitted following the completion of the medical screening	6	4	2	0	67%
8	The inmate is evaluated by mental health by the next working day	6	3	3	0	50%
9	The inmate receives additional mental health care if he/she asked for continued services or the services are clinically indicated	1	0	1	5	0%

Dental Review

Dental Care

		COMPLIANCE SCORE				
	SCREEN QUESTION	Total Applicable Records	YES	NO	N/A	Compliance Percentage
1	The dental record contains a Dental Health Questionnaire, which is complete, current, and signed by the dentist	16	15	1	0	94%
2	Allergies are documented and correspond to the information in the current Dental Health Questionnaire	16	15	1	0	94%
3	There is evidence of a regional head and neck examination completed at required intervals	16	16	0	0	100%
4	Dental appointments are completed in a timely manner	14	9	5	2	64%
5	Appropriate radiographs are taken and are of sufficient quality to aid in diagnosis and treatment	14	14	0	2	100%
6	There is evidence of accurate diagnosis based on a complete dental examination	16	15	1	0	94%
7	The treatment plan is appropriate for the diagnosis	16	16	0	0	100%
8	There is evidence of a periodontal screening and recording (PSR) and results are documented in the medical record	13	12	1	3	92%
9	Dental findings are accurately documented	16	16	0	0	100%
10	Sick call appointments are completed timely	6	5	1	10	83%
11	Follow-up appointments for sick call or other routine care are completed timely	0	0	0	16	N/A
12	Consultations or specialty services are completed timely	0	0	0	16	N/A
13	Consultant's treatment recommendations are incorporated into the treatment plan	0	0	0	16	N/A
14	There is evidence of informed consent or refusal for extractions and/or endodontic care	9	9	0	7	100%
15	The use of dental materials including anesthetic agent are accurately documented	16	16	0	0	100%
16	Applicable patient education for dental services is provided	14	14	0	2	100%

Dental Systems

	SCREEN QUESTION	COMPLIANCE SCORE			Compliance Percentage
		YES	NO	N/A	
1	The dental program is under the direction and supervision of a licensed dentist and staff are appropriately credentialed and working within their scope of practice	1	0	0	100%
2	Appropriate personal protective equipment is available to staff and worn during treatment	1	0	0	100%
3	The autoclave is tested appropriately and an autoclave log is maintained and up to date.	1	0	0	100%
4	Sharps containers are available and properly utilized	1	0	0	100%
5	Biohazardous waste is properly disposed	1	0	0	100%
6	X-ray fixer, scrap amalgam, amalgam capsules, and radiographs are properly disposed	1	0	0	100%
7	Dental instruments and equipment are properly sterilized	1	0	0	100%
8	Prosthetic devices are appropriately disinfected between patients	1	0	0	100%

11	Dental assistants work within the guidelines established by the Board of Dentistry	1	0	0	100%
12	Dental request logs are effectively maintained	1	0	0	100%
13	Necessary equipment is available, adequate and in working order	1	0	0	100%
14	The dental clinic is clean, orderly, adequately lit and contains sufficient space to ensure patient privacy	1	0	0	100%

Mental Health Survey Findings

Self-Injury and Suicide Prevention

Self-Injury and Suicide Prevention

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	A thorough clinical assessment is completed prior to placement on Self-harm Observation Status (SHOS)	12	12	0	0	100%
2	The nursing evaluation is completed within 2 hours of admission	12	12	0	0	100%
3	Guidelines for SHOS management are observed	3	3	0	9	100%
4	The inmate is observed at the frequency ordered by the clinician	12	1	11	0	8%
5	Nursing evaluations are completed once per shift	11	11	0	1	100%
6	There is evidence of daily rounds by the attending clinician	11	11	0	1	100%
7	There is evidence of daily counseling provided by mental health staff	10	10	0	2	100%
8	There is evidence of a face-to-face evaluation by the clinician prior to discharge	11	11	0	1	100%
9	There is evidence of adequate post-discharge follow-up by mental health staff	11	11	0	1	100%
10	The Individualized Services Plan (ISP) is revised within 14 days of discharge	8	8	0	4	100%

Self-Injury and Suicide Prevention Discussion:

Screen 4: In seven records, safety observation checklists were not located for the entirety of the SHOS admission. In the remaining records, safety observation checklists were unable to be located for at least one day of the admission. Additionally, there were blanks on the checklists indicating that safety checks may not have been completed during those time periods.

Access To Mental Health Services

Psychological Emergency

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage	
	Total Applicable Records	YES	NO	N/A		
1	There is documentation in the medical record indicating the inmate has declared a mental health emergency	18	18	0	0	100%
2	The emergency is responded to within one hour	18	18	0	0	100%
3	Documentation indicates that the clinician considered the inmate's history of mental health treatment and past suicide attempts	17	17	0	1	100%
4	Documentation indicates the clinician fully assessed suicide risk	17	17	0	1	100%
5	A thorough mental status examination is completed	17	17	0	1	100%
6	Appropriate interventions are made	17	17	0	1	100%
7	The disposition is clinically appropriate	17	17	0	1	100%
8	There is appropriate follow-up as indicated in response to the emergency	8	8	0	10	100%

Mental Health Inmate Requests

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage	
	Total Applicable Records	YES	NO	N/A		
1	A copy of the inmate request form is present in the electronic health record	12	12	0	0	100%
2	The request is responded to within the appropriate time frame	12	9	3	0	75%
3	The response to the request is direct, addresses the stated need, and is clinically appropriate	12	10	2	0	83%
4	The follow-up to the request occurs as intended	9	7	2	3	78%
5	Consent for treatment is obtained prior to conducting an interview	7	5	2	5	71%

Mental Health Inmate Requests Discussion:

Screen 2: In two records, the response was not dated making it impossible to determine if it was responded to within the required time frame. In the remaining record, the response was not provided timely.

Screen 4: In one record, the inmate was not seen for over one month. In the second record, there was no evidence that the inmate was evaluated by the time of the survey.

Screen 5: In these records, the inmate was seen timely by mental health as requested. However, there was no consent for mental health treatment on file at the time of the interview.

Special Housing

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The pre-confinement examination is completed prior to placement in special housing	13	13	0	3	100%
2	Psychotropic medications continue as ordered while inmates are held in special housing	0	0	0	16	N/A
3	A mental status examination (MSE) is completed in the required time frame	14	13	1	2	93%
4	Follow-up MSEs are completed in the required time frame	14	14	0	2	100%
5	MSEs are sufficient to identify problems in adjustment	13	13	0	3	100%
6	Mental health staff responds to identified problems in adjustment	9	9	0	7	100%
7	Outpatient mental health treatment continues as indicated while the inmate is held in special housing	13	13	0	3	100%

Use of Force

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	A post use-of-force physical examination is present in the record	4	4	0	0	100%
2	The post use-of-force physical examination is completed in its entirety	4	4	0	0	100%
3	There is evidence physical health staff completed a referral to mental health staff	2	2	0	2	100%
4	Documentation indicates mental health staff interviewed the inmate by the next working day to assess whether a higher level of mental health care is needed	4	4	0	0	100%
5	Recent changes in the inmate's condition are addressed	4	4	0	0	100%
6	There is evidence of appropriate follow-up care for identified mental health problems	4	4	0	0	100%
7	A physician's order is documented if force is used to provide medical treatment	0	0	0	4	N/A

Access To Mental Health Services

Outpatient Mental Health Services

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	A consent for treatment is signed prior to treatment and/or renewed annually	18	17	1	0	94%
2	The inmate is interviewed by mental health staff within 14 days of arrival	14	12	2	4	86%
3	Documentation includes an assessment of mental status, the status of mental health problems, and an individualized service plan (ISP) update	13	13	0	5	100%
4	A sex offender screening is completed within 60 days of arrival at the permanent institution if applicable.	1	1	0	17	100%
5	Consent is obtained prior to initiating sex offender treatment	0	0	0	18	N/A
6	A clinically appropriate conclusion is reached following the sex offender screening	1	1	0	17	100%
7	A refusal form is completed if the inmate refuses recommended sex offender treatment	0	0	0	18	N/A
8	A monthly progress note is completed for inmates undergoing sex offender treatment	0	0	0	18	N/A
9	The Bio-psychosocial (BPSA) is present in the record	18	15	3	0	83%
10	The BPSA is approved by the treatment team within 30 days of initiation of mental health services	3	3	0	15	100%
11	If mental health services are initiated at this institution, the initial ISP is completed within 30 days	4	4	0	14	100%
12	The ISP is individualized and addresses all required components	18	18	0	0	100%
13	ISP problem descriptions include baseline data on the frequency and intensity of symptoms and identify functional limitations	18	18	0	0	100%
14	ISP goals are time limited and written in objective, measurable behavioral terms	18	18	0	0	100%
15	The ISP specifies the type of interventions, frequency of interventions, and staff responsible for providing services	18	18	0	0	100%

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
16	The ISP is signed by the inmate and all members of the treatment team	18	13	5	0	72%
17	The ISP is reviewed and revised at least every 180 days	15	15	0	3	100%
18	Identified problems are recorded on the problem list	18	18	0	0	100%
19	The diagnosis is clinically appropriate	18	18	0	0	100%
20	There is evidence the inmate received the mental health services described in the ISP	18	18	0	0	100%
21	Counseling is offered at least once every 60 days	18	18	0	0	100%
22	Case management is provided every 30 days to S3 inmates with psychotic disorders	0	0	0	18	N/A
23	Case management is provided at least every 60 days for inmates without psychotic disorders	18	18	0	0	100%
24	The Behavioral Risk Assessment (BRA) is completed within the required time frame for inmates in close management (CM) status	11	7	4	7	64%
25	The BRA is accurate and signed by all members of the treatment team	9	9	0	9	100%
26	The ISP is updated within 14 days of CM placement	10	10	0	8	100%
27	Inmates in CM are receiving 1 hour of group or individual counseling each week	11	11	0	7	100%
28	Mental health staff complete the CM referral assessment within five working days	5	4	1	13	80%
29	Progress notes are of sufficient detail to follow the course of treatment	18	18	0	0	100%
30	The frequency of clinical contacts is sufficient	18	18	0	0	100%

Outpatient Mental Health Services Discussion:

Screen 16: In these records, the Individualized Service Plan (ISP) was not signed by the inmate and members of the treatment team.

Screen 24: In these records, the Behavioral Risk Assessment (BRA) was not completed within the required time frame.

		YES	NO	N/A	
1	Adequate space is available for the mental health department	1	0	0	100%
2	The inpatient unit environment is safe and conducive to providing mental health care	1	0	0	100%
3	Outpatient group therapy is offered	1	0	0	100%

Interview Summaries

INMATE INTERVIEWS

Eleven of twelve inmates agreed to participate in interviews with CMA surveyors. Overall, inmates reported that medical services were adequate. However, many reported delays in chronic illness clinic visits and felt that they would like to be given more information about their diagnosis and treatment plan. Approximately half of the inmates reported inconsistent availability of over-the-counter (OTC) medications in the dorms as well as delays in receiving keep-on-person (KOP) medications making adherence challenging. Many of the inmate patients indicated education was often provided to them about lab results, medication side effects, and warning signs to look out for, in addition to general health improvement information. Inmates were complimentary of mental health staff. They expressed satisfaction with the timeliness of routine services and prompt response to psychological emergencies. Some inmates reported long wait times for the preventative dental plan but were satisfied with these services once they were initiated.

MEDICAL STAFF INTERVIEWS

Three members of the nursing team, as well as clerical, clinical, and administrative staff participated in interviews. All interviewees appeared knowledgeable about procedures related to accessing health services. The majority of the interview participants identified staff shortages as one of the biggest challenges they face in providing inmate care. When asked about the treatment provided, staff felt that they excel in handling emergency care and stated that although they have a lot of traumas, they are handled well and in a timely manner.

MENTAL HEALTH STAFF INTERVIEWS

Interviews were conducted with three members of the mental health staff. All interviewees indicated they were familiar with policy and procedures for prevention of self-harm and expressed a strong desire to serve the inmates in their care. Hardee CI does not provide psychiatric medication management and those inmates who require psychotropic medication receive telehealth services until they are transferred to another institution. Mental health staff endorsed a good working relationship with security personnel, which they felt contributed to the efficient provision of mental health services. However, staff and inmates reported that security staff are occasionally present for emergency evaluations or therapeutic groups which could infringe on the inmate's privacy.

SECURITY STAFF INTERVIEWS

Three correctional officers were interviewed during the survey of HARCI. Security staff appeared knowledgeable about policies pertaining to the sick call process and the accessing of emergency and routine medical care. They correctly verbalized procedures that pertain to inmates being placed in special housing. The relationship between security and healthcare staff appeared to be collaborative in nature with good communication between the two groups. This is especially important for continuity of care as close management inmates are housed at this institution.

All items that scored below 80% or were identified as non-compliant should be addressed through the corrective action process. Within 30 days of receiving the final copy of the CMA's survey report, institutional staff must develop a corrective action plan (CAP) that addresses the deficiencies outlined in the report and in-service training should be conducted for all applicable findings. The CAP is then submitted to the Office of Health Services (OHS) for approval before it is reviewed and approved by CMA staff. Once approved, institutional staff implement the CAP and work towards correcting the findings.

Usually, four to five months after a CAP is implemented (but no less than three months) the CMA will evaluate the effectiveness of the corrective actions taken. Findings deemed corrected are closed and monitoring is no longer required. Conversely, findings not corrected remain open. Institutional staff will continue to monitor open findings until the next assessment is conducted, typically within three to four months. This process continues until all findings are closed.

Recommendations

In addition to the needed corrective actions described above and based upon the comprehensive review of the physical, mental health, and administrative services at HARCHI, the CMA makes the following recommendations:

- Continue to train and support staff on optimally utilizing the electronic health record.
- Conduct a thorough review of inmates enrolled in CIC to reassess M-grade status and ensure that inmates are scheduled at the appropriate intervals.
- Ensure that orders are received and implemented accordingly for infirmary admissions and that discharge notes are thorough and complete.
- Ensure that laboratory and diagnostic testing is completed as required for periodic screening encounters.
- Establish timeliness in receipt, response, and resulting interview for inmate mental health requests.
- Ensure appropriate and complete documentation of safety observations for inmates on Self-harm Observation Status (SHOS) within the infirmary setting.
- The multi-disciplinary services team, led by a psychologist, meets weekly but the inmates rarely attend. CMA surveyors suggested that prioritizing inmate inclusion within the treatment team could lead to more active participation and improved adherence to the plan of care.
