of

HAMILTON CORRECTIONAL INSTITUTION - MAIN

for the

Physical and Mental Health Survey
Conducted May 20-22, 2025

CMA STAFF

Distributed on May 26, 2026

I. Overview

On May 20-22, 2025, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Hamilton Correctional Institution (HAMCI). The survey report was distributed on July 2, 2025. In July 2025, HAMCI submitted and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the HAMCI survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days. Items II and III below describe the outcome of the CMA’s evaluation of the institution’s efforts to address the survey findings.

IV. Conclusion

Until appropriate corrective actions are undertaken by HAMCI staff and the results of those corrections reviewed by the CMA, this CAP will remain open. As some of the necessary steps to correct findings require further institutional monitoring, closure may take as long as three months. Follow-up assessment by the CMA will most likely take place through an off-site evaluation.
