## I. Overview

On January 8-10, 2019, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Jackson Correctional Institution (JACCI). The survey report was distributed on February 11, 2019. In July 2019, JACCI submitted and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the JACCI survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days.

Items II and III below describe the outcome of the CMA's evaluation of the institution's efforts to address the survey findings.
