I. Overview

In November 2023, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Lawtey Correctional Institution (LAWCI). The survey report was distributed on December 23, 2023. In January 2024, LAWCI submitted, and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the LAWCI survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days. Items II and III below describe the outcome of the CMA’s evaluation of the institution’s efforts to address the survey findings.
