

**FIRST CORRECTIVE ACTION PLAN
ASSESSMENT**

of

MARION CORRECTIONAL INSTITUTION

for the

Physical and Mental Health Survey
Conducted December 2-4, 2025

CMA STAFF

Lynne Babchuck, LCSW

Distributed on July 30, 2026

I. Overview

On December 2-4, 2026, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Marion Correctional Institution (MARCI). The survey report was distributed on January 15, 2026. In February 2026, MARCI submitted, and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the MARCI survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days. Items II and III below describe the outcome of the CMA's evaluation of the institution's efforts to address the survey findings.

Summary of CAP Assessments for Marion Correctional Institution

CAP #	CAP Assessment Date	Total # Survey Findings	Total # Open Findings	Total # Findings Closed
1	7/7/26	9	2	7

II. Physical Health Assessment Summary

The CAP closure files revealed sufficient evidence to determine that 5 of the 7 physical health findings were corrected. Two physical health findings remain open.

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
<u>Gastrointestinal Clinic:</u> Screen 8: Referrals to specialists for more in-depth treatment are made as indicated.	X				
<u>Tuberculosis Clinic:</u> Screen 11: Inmates are seen by the clinician at the completion of therapy.	X				

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
<u>Inpatient Infirmary Care:</u> Screen 2: All orders are received and implemented.	X				
Screen 4: Morse Fall Scales are completed at the required intervals.	X				
<u>Confinement Medical Review:</u> Screen 3: All active medications continue as ordered while inmates are held in special housing.	X				
<u>Consultations:</u> Screen 3: Consultations are completed in a timely manner as dictated by the clinical needs of the inmate.		X			
Screen 4: The provider monitors inmates weekly to determine deterioration or status change.		X			

III. Mental Health Assessment Summary

A. Main Unit

The CAP closure files revealed sufficient evidence to determine that 2 of the 2 mental health findings were corrected. All mental health findings are closed.

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
<u>Self-Injury and Suicide Prevention</u> <u>Review:</u> Screen 3: A medical provider completed a history and physical for every SHOS/Mental Health Observation Status (MHOS) admission	X				
Screen 5: SHOS infirmary orders contain required components and are received and implemented accordingly.	X				

IV. Conclusion

Until appropriate corrective actions are undertaken by MARCI staff and the results of those corrections reviewed by the CMA, this CAP will remain open. As some of the necessary steps to correct findings require further institutional monitoring, closure may take as long as three months. Follow-up assessment by the CMA will most likely take place through an off-site evaluation.
