BACKGROUND AND SCOPE

The Correctional Medical Authority (CMA) is required, per § 945.6031(2) F.S., to conduct triennial surveys of the physical and mental health care systems at each correctional institution and report survey findings to the Secretary of Corrections. The process is designed to assess whether inmates in Florida Department of Corrections (FDC) institutions can access medical, dental, and mental health care and to evaluate the clinical adequacy of the resulting care.

The goals of institutional surveys are:

- 1) to determine if the physical, dental, and mental health care provided to inmates in all state public and privately operated correctional institutions is consistent with state and federal law, conforms to standards developed by the CMA, is consistent with the standards of care generally accepted in the professional health care community at large.
- 2) to promote ongoing improvement in the correctional system of health services; and,
- 3) to assist the Department in identifying mechanisms to provide cost effective health care to inmates.

To achieve these goals, specific criteria designed to evaluate inmate care and treatment in terms of effectiveness and fulfillment of statutory responsibility are measured. They include determining whether:

- Inmates have adequate access to medical and dental health screening and evaluation and to ongoing preventative and primary health care.
- Inmates receive adequate and appropriate mental health screening, evaluation, and classification.
- Inmates receive complete and timely orientation on how to access physical, dental, and mental health services.
- Inmates have adequate access to medical and dental treatment that results in the remission of symptoms or in improved functioning.
- Inmates receive adequate mental health treatment that results in or is consistent with the remission of symptoms, improved functioning relative to their current environment and reintegration into the general prison population as appropriate.
- Inmates receive and benefit from safe and effective medication, laboratory, radiology, and dental practices.
- Inmates have access to timely and appropriate referral and consultation services.
- Psychotropic medication practices are safe and effective.
- Inmates are free from the inappropriate use of restrictive control procedures.
- There is sufficient documentation to provide a clear picture of the inmate's care and treatment.
- There are enough qualified staff to provide adequate treatment.

METHODOLOGY

During a multi-day site visit, the CMA employs a standardized monitoring process to evaluate the quality of physical and mental health services provided at this institution, identify significant deficiencies in care and treatment, and assess institutional compliance with FDC's policies and procedures.

This process consists of:

- Information gathering prior to monitoring visit (Pre-survey Questionnaire)
- On-site review of clinical records and administrative documentation
- Institutional tour
- Inmate and staff interviews

The CMA contracts with a variety of licensed community and public health care practitioners including physicians, psychiatrists, dentists, nurses, psychologists, and other licensed mental health professionals to conduct these surveys. CMA surveyors utilize uniform survey tools, based on FDC's Office of Health Services (OHS) policies and community health care standards, to evaluate specific areas of physical and mental health care service delivery. These tools assess compliance with commonly accepted policies and practices of medical record documentation.

The CMA employs a record selection methodology using the Raosoft Calculation method. This method ensures a 15 percent margin of error and an 80 percent confidence level. Records are selected in accordance with the size of the clinic or assessment area being evaluated.

Compliance scores are calculated by dividing the sum of all yes responses by the sum of all yes and no responses (***rating achieved/possible rating***) and are expressed as a percentage. Institutional tours and systems evaluations are scored as compliant or non-compliant. Individual screens with a compliance percentage below 80%, as well as tour and systems requirements deemed non-compliant will require completion of the CMA's corrective action process (CAP) and are highlighted in red.

INSTITUTIONAL DEMOGRAPHICS AND STAFFING

Taylor Correctional Institution (TAYCI) houses male inmates of minimum, medium, and close custody levels. The facility grades are medical (M) grades 1, 2, 3, 4 and 5, and psychology (S) grades 1 and 2. TAYCI consists of a Main Unit as the Annex is currently closed.¹

Institutional Potential and Actual Workload

Main Unit Capacity	1551	Current Main Unit Census	1501
Satellite Unit(s) Capacity	N/A	Current Satellite(s) Census	N/A
Total Capacity	1551	Total Current Census	1501

Mental Health LPN	N/A	N/A

TAYLOR CORRECTIONAL INSTITUTION SURVEY SUMMARY

The CMA conducted a thorough review of the medical, mental health, and dental systems at Taylor CI in August 2023. Record reviews evaluating the provision and documentation of care were also conducted. Additionally, a review of administrative processes and a tour of the physical plant were conducted.

Detailed below are results from the institutional survey of TAYCI. The results are presented by assessment area and for each screen of the monitoring tool. Compliance percentages are provided for each screen.

Survey Findings Summary			
Physical Health Survey Findings	20	Mental Health Survey Findings	0

Physical Health Survey Findings

Chronic Illness Clinics

Cardiovascular Chronic Illness Clinic

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The diagnosis is appropriate for inclusion in the cardiovascular clinic	17	17	0	0	100%
2	There is evidence of an appropriate physical examination	17	17	0	0	100%
3	At each visit there is an evaluation of the control of the disease and the status of the patient	16	16	0	1	100%
4	Annual laboratory work is completed as required	17	16	1	0	94%
5	Abnormal labs are reviewed and addressed in a timely manner	17	17	0	0	100%
6	There is evidence that patients with cardiovascular disease are prescribed low-dose aspirin if indicated	5	5	0	12	100%
7	Medications appropriate for the diagnosis are prescribed	17	17	0	0	100%
8	Patients are referred to a specialist for more in-depth treatment as indicated	1	1	0	16	100%

Endocrine Clinic Chronic Illness Clinic

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The diagnosis is appropriate for inclusion in the endocrine clinic	16	16	0	0	100%
2 There is evidence of an appropriate physical examination	16	10	6	0	63%
3 At each visit there is an evaluation of the control of the disease and the status of the patient	16	13	3	0	81%
4 Annual laboratory work is completed as required	16	16	0	0	100%
5 Abnormal labs are reviewed and addressed in a timely manner	16	16	0	0	100%
6 A dilated fundoscopic examination is completed yearly for diabetic inmates	6	3	3	10	50%
7 Inmates with HgbA1c over 8% are seen at least every 90 days	4	3	1	12	75%
8 Inmates with vascular disease or risk factors for vascular disease are prescribed aspirin	8	8	0	8	100%
9 Inmates with diabetes who are hypertensive or show evidence of (micro)albuminuria are placed on ACE/ARB therapy	5	5	0	11	100%
10 Medications appropriate for the diagnosis are prescribed	15	15	0	1	100%
11 Patients are receiving insulin as prescribed	6	6	0	10	100%
12 Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	16	N/A

Endocrine Chronic Illness Clinic Discussion:

Screen 2: In six records, the physical examination did not include an evaluation of the neck or thyroid.

Screen 7: In one record, an inmate with a HgbA1C of 8.4% was not seen for more than one year, instead of every three months as required with evidence of uncontrolled blood sugars.

Gastrointestinal Chronic Illness Clinic

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The diagnosis is appropriate for inclusion in the gastrointestinal clinic	16	16	0	0	100%
2	There is evidence of an appropriate physical examination	16	16	0	0	100%
3	At each visit there is an evaluation of the control of the disease and the status of the patient	16	16	0	0	100%
4	Annual laboratory work is completed as required	16	14	2	0	88%
5	Abnormal labs are reviewed and addressed in a timely manner	16	16	0	0	100%
6	Medications appropriate for the diagnosis are prescribed	5	5	0	11	100%
7	There is evidence of hepatitis A and/or B vaccination for inmates with hepatitis C and no evidence of past infection	8	8	0	8	100%
8	Abdominal ultrasounds are completed at the required intervals	11	11	0	5	100%
9	Inmates with chronic hepatitis will have liver function tests at the required intervals	16	16	0	0	100%
10	Patients are referred to a specialist for more in-depth treatment as indicated	8	8	0	8	100%
11	Inmates are evaluated and staged appropriately to determine treatment needs	0	0	0	16	N/A
12	Hepatitis C treatment is started within the appropriate time frame	0	0	0	16	N/A
13	Laboratory testing for inmates undergoing hepatitis treatment is completed at the required intervals	0	0	0	16	N/A
14	Inmates undergoing hepatitis C treatment receive medications as prescribed	0	0	0	16	N/A
15	Labs are completed at 12 weeks following the completion of treatment to assess treatment failure	0	0	0	16	N/A

General Chronic Illness Clinic

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Record	YES	NO	N/A	
1	The inmate is enrolled in all clinics appropriate for their diagnosis	18	18	0	0	100%
2	Appropriate patient education is provided	18	18	0	0	100%
3	The inmate is seen at intervals required for their M-grade or at intervals specified by the clinician	18	13	5	0	72%
4	There is evidence that labs are available prior to the clinic visit and are reviewed by the clinician	18	18	0	0	100%

General Chronic Illness Clinic Discussion:

Screen 3: In two records, the clinician indicated that the subsequent chronic illness clinic (CIC) appointment should be completed at six months, but the inmates were not seen for over one year. In two records, inmates classified with a medical grade of 3 (M-3) were not seen at 90-day intervals as required by Department policy. In the remaining record, the clinician indicated that the subsequent CIC appointment should be scheduled for six months. However, it was nine months before the appointment was completed.

Immunity Chronic Illness Clinic

		COMPLIANCE SCORE				
SCREEN QUESTION		Total Applicable Records	YES	NO	N/A	Compliance Percentage
1	There is a diagnosis of Human Immunodeficiency Virus (HIV)	14	14	0	0	100%
2	There is evidence of an appropriate physical examination.	14	14	0	0	100%
3	Laboratory work (CD4, HIV viral load, and CMP) is completed at the required intervals	14	14	0	0	100%
4	Virologic failure is addressed with resistance testing, review of medication adherence and the appropriate change in medication regimens	0	0	0	14	N/A
5	A CBC is collected annually	14	14	0	0	100%
6	Abnormal labs are reviewed and addressed in a timely manner	14	14	0	0	100%
7	Medications appropriate for the diagnosis are prescribed	13	13	0	1	100%
8	The inmate receives HIV medication(s) as prescribed	13	13	0	1	100%
9	At each visit there is an evaluation of the control of the disease and the status of the patient	0	0	0	14	N/A
10	There is evidence of hepatitis B vaccination for inmates with no evidence of past infection	14	8	6	0	57%
11	Pregnant patients are provided counseling and education regarding benefits and risks of anti-retroviral therapy. Care is coordinated between the clinician and the treating obstetrician	0	0	0	14	N/A
12	Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	14	N/A

Miscellaneous Chronic Illness Clinic

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The diagnosis is appropriate for inclusion in the miscellaneous clinic	12	12	0	0	100%
2 There is evidence of an appropriate physical examination	12	10	2	0	83%
3 Medications appropriate for the diagnosis are prescribed	12	12	0	0	100%
4 At each visit there is an evaluation of the control of the disease and the status of the patient	10	10	0	2	100%
5 Abnormal labs are reviewed and addressed in a timely manner	10	10	0	2	100%
6 Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	12	N/A

Neurology Chronic Illness Clinic

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The diagnosis is appropriate for inclusion in the neurology clinic	10	10	0	0	100%
2 There is evidence of an appropriate physical examination	10	10	0	0	100%
3 Annual laboratory work is completed as required	10	10	0	0	100%
4 Abnormal labs are reviewed and addressed in a timely manner	9	9	0	1	100%
5 At each visit there is an evaluation of the control of the disease and the status of the patient	9	8	1	1	89%
6 Medications appropriate for the diagnosis are prescribed	10	10	0	0	100%
7 Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	10	N/A

Oncology Chronic Illness Clinic

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The diagnosis is appropriate for inclusion in the oncology clinic	8	8	0	0	100%
2 There is evidence of an appropriate physical examination	8	8	0	0	100%
3 Appropriate labs, diagnostics and marker studies are performed as clinically appropriate	8	8	0	0	100%
4 Annual laboratory work is completed as required	8	8	0	0	100%
5 Abnormal labs are reviewed and addressed in a timely manner	8	8	0	0	100%
6 At each visit there is an evaluation of the control of the disease and the status of the patient	8	8	0	0	100%
7 Medications appropriate for the diagnosis are prescribed	6	6	0	2	100%
8 Oncological treatments are received as prescribed	7	7	0	1	100%
9 Patients are referred to a specialist for more in-depth treatment as indicated	1	1	0	7	100%

Respiratory Chronic Illness Clinic

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The diagnosis is appropriate for inclusion in the respiratory clinic	17	17	0	0	100%
2	Inmates with moderate to severe reactive airway disease are started on anti-inflammatory medication	0	0	0	17	N/A
3	Medications appropriate for the diagnosis are prescribed	17	17	0	0	100%
4	A peak flow reading is recorded at each visit	17	17	0	0	100%
5	There is evidence of an appropriate physical examination	17	17	0	0	100%
6	At each visit there is an evaluation of the control of the disease and the status of the patient	16	14	2	1	88%
7	Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	17	N/A

Tuberculosis Chronic Illness Clinic

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The inmate has a diagnosis of tuberculosis or latent tuberculosis infection	7	7	0	0	100%
2 There is evidence a chest X-ray (CXR) was completed	7	7	0	0	100%
3 There is evidence of initial and ongoing education	7	7	0	0	100%
4 There is evidence of monthly nursing follow-up	7	7	0	0	100%
5 Laboratory testing results are available prior to the clinic visit and any abnormalities reviewed in a timely manner	7	7	0	0	100%
6 AST and ALT testing are repeated as ordered by the clinician	7	7	0	0	100%
7 CMP testing is completed monthly for inmates with HIV, chronic hepatitis or are pregnant	0	0	0	7	N/A
8 Inmates with adverse reaction to LTBI therapy are referred to the clinician and medications are discontinued	0	0	0	7	N/A
9 The appropriate medication regimen is prescribed	6	6	0	1	100%
10 The inmate receives TB medications as prescribed	6	6	0	1	100%
11 The Inmate is seen by the clinician at the completion of therapy	1	1	0	6	100%
12 Documentation of the CIC visit includes an appropriate physical examination	7	7	0	0	100%
13 Patients are referred to a specialist for more in-depth treatment as indicated	0	0	0	7	N/A

Episodic Care

Emergency Services

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 Potentially life-threatening conditions are responded to immediately	9	9	0	9	100%
2 The emergency assessment is appropriate for the presenting complaint/condition and completed in its entirety	18	18	0	0	100%
3 Vital signs including weight are documented	18	17	1	0	94%
4 There is evidence of appropriate and applicable patient education	17	17	0	1	100%
5 Findings requiring clinician notification are made in accordance with protocols	12	12	0	6	100%
6 Follow-up visits are completed timely	9	9	0	9	100%
7 Clinician's orders from the follow-up visit are completed as required	12	12	0	6	100%
8 Appropriate documentation is completed for patient's requiring transport to a local emergency room	0	0	0	18	N/A
9 Inmates returning from an outside hospital are evaluated by the clinician within one business day	0	0	0	18	N/A

Outpatient Infirmary Care

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 Clinician's orders specify whether the inmate is admitted into the infirmary or placed on observation status. Admission status is appropriate for the presenting complaint/condition	12	12	0	0	100%
2 All orders are received and implemented	12	12	0	0	100%
3 The inmate is evaluated within one hour of being placed on observation status	12	12	0	0	100%
4 Patient evaluations are documented at least once every eight hours	12	12	0	0	100%
5 Weekend and holiday clinician phone rounds are completed and documented as required	9	9	0	3	100%
6 The inmate is discharged within 23 hours or admitted to the infirmary for continued care	12	12	0	0	100%
7 A discharge note containing all of the required information is completed as required	12	12	0	0	100%

Inpatient Infirmary Care

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 Clinician's orders specify whether the inmate is admitted into the infirmary or placed in observation status. Admission status is appropriate for the presenting complaint/condition	10	10	0	0	100%
2 All orders are received and implemented	10	7	3	0	70%
3 A thorough nursing assessment is completed within two hours of admission	10	10	0	0	100%
4 A Morse Fall Scale is completed at the required intervals	10	9	1	0	90%
5 Nursing assessments are completed at the required intervals	10	10	0	0	100%
6 Clinician rounds are completed and documented as required	10	8	2	0	80%
7 Weekend and holiday clinician phone rounds are completed and documented as required	8	8	0	2	100%
8 A discharge note containing all of the required information is completed as required	9	5	4	1	56%
9 A discharge summary is completed by the clinician within 72 hours of discharge	9	9	0	1	100%

Inpatient Infirmary Care Discussion:

Screen 2: In one record, admission labs were ordered but not completed for over two weeks. In two records, there was no evidence that medications were administered according to the prescriber's order.

Screen 8: In these records, discharge instructions and patient education were not documented.

Sick Call Services

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The sick call request is appropriately triaged based on the complaint or condition	18	17	1	0	94%
2 The inmate is assessed in the appropriate time frame	18	18	0	0	100%
3 The nursing assessment is completed in its entirety	18	17	1	0	94%
4 Complete vital signs including weight are documented	18	17	1	0	94%
5 There is evidence of applicable patient education	18	17	1	0	94%
6 Referrals to a higher level of care are made in accordance with protocols	11	10	1	7	91%
7 Follow-up visits are completed in a timely manner	11	4	7	7	36%
8 Clinician orders from the follow-up visit are completed as required	5	2	3	13	40%

Sick Call Services Discussion:

Screen 7: In four records, nursing staff made a referral to the primary care clinician. However, only a record review was completed, and a physical evaluation was not documented although clinically indicated. In the fifth record, an inmate experiencing multiple episodes of shortness of breath was not seen timely by the clinician. In the sixth record, an inmate was not evaluated timely following an orthopedic injury. In the seventh record, the clinician ordered wound care for an inmate with a skin infection. However, there was no evidence the inmate received this care.

Screen 8: In the deficient records, antibiotic treatments were ordered by the clinician but not administered timely.

Other Medical Records Review

Confinement Medical Review

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The Pre-Special Housing Health Evaluation is complete and accurate	17	15	2	1	88%
2	All medications are continued as prescribed while the inmate is held in special housing	10	10	0	8	100%
3	The inmate is seen in chronic illness clinic as regularly scheduled	7	7	0	11	100%
4	All emergencies are responded to within the required time frame	2	2	0	16	100%
5	The response to the emergency is appropriate	2	2	0	16	100%
6	All sick call appointments are triaged and responded to within the required time frame	6	6	0	12	100%
7	New or pending consultations progress as clinically required	4	4	0	14	100%
8	All mental health and/or physical health inmate requests are responded to within the required time frame	5	5	0	13	100%

Consultations

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 Documentation of clinical information is sufficient to obtain the needed consultation	12	12	0	0	100%
2 The referral is sent to Utilization Management in a timely manner which is consistent with the clinical needs of the inmate	12	12	0	0	100%
3 The consultation is completed in a timely manner as dictated by the clinical needs of the inmate	11	11	0	1	100%
4 The consultation report is reviewed by the clinician in a timely manner	11	11	0	1	100%
5 The consultant's treatment recommendations are incorporated into the treatment plan	11	9	2	1	82%
6 All appointments for medical follow-up and/or diagnostic testing are completed as per the consultant's recommendations	11	10	1	1	91%
7 The diagnosis is recorded on the problem list	11	10	1	1	91%
8 The "alternative treatment plan" (ATP) is documented in the medical record	1	1	0	11	100%
9 There is evidence that the ATP is implemented	1	1	0	11	100%

Medical Inmate Requests

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 A copy of the inmate request form is present in the electronic health record	18	17	1	0	94%
2 The request is responded to within the appropriate time frame	17	17	0	1	100%
3 The response to the request is direct, addresses the stated need and is clinically appropriate	17	17	0	1	100%
4 The follow-up to the request occurs as intended	16	16	0	2	100%

Medication And Vaccination Administration

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The inmate receives medications as prescribed	12	12	0	0	100%
2 Allergies are listed on the MAR or the medication page in the EMR	12	12	0	0	100%
3 If the inmate missed medication doses (3 consecutive or 5 doses within one month), there is evidence of counseling for medication non-compliance	5	3	2	7	60%
4 There is evidence of pneumococcal vaccination or refusal	12	11	1	0	92%
5 There is evidence of influenza vaccination or refusal	12	12	0	0	100%

Intra-System Transfers

	SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The health record contains a completed Health Information Arrival Transfer Summary (DC4-760A)	18	18	0	0	100%
2	The DC4-760A or a progress note indicates that the inmate's vital signs are taken	18	18	0	0	100%
3	The inmate's medications reflect continuity of care	7	7	0	11	100%
4	The medical record reflects continuity of care for inmate's pending consultations	1	1	0	17	100%
5	For patients with a chronic illness, appointments to the specific clinic(s) took place as scheduled	7	7	0	11	100%
6	Special passes/therapeutic diets are reviewed and continued	2	2	0	16	100%
7	A clinician reviews the health record and DC4-760A within seven (7) days of arrival	18	18	0	0	100%

Periodic Screenings

SCREEN QUESTION		COMPLIANCE SCORE				Compliance Percentage
		Total Applicable Records	YES	NO	N/A	
1	The periodic screening encounter is completed within one month of the due date	18	8	10	0	44%
2	All components of the screening are completed and documented as required	18	2	16	0	11%
3	All diagnostic tests are completed prior to the periodic screening encounter	18	7	11	0	39%
4	Referral to a clinician occurs if indicated	7	4	3	11	57%
5	All applicable health education is provided	18	14	4	0	78%

Periodic Screenings Discussion:

Screen 1: In six records, the periodic screening was completed more than one year after it was due. In three records, the screenings were completed approximately six to nine months after they were due. In the remaining record, the periodic screening was completed two years after the due date.

Screen 2: In 12 records, weight and/or vital signs comparison to the inmates' prior data was missing. In three of these records, there was no evidence that the inmate was given lab results in addition to the missing weight and/or vital signs comparison. In one record, the inmate was not given lab results and a tuberculosis screening was not completed. In another record, weight and/or vital sign comparison was missing, and an abnormal urinalysis was not addressed. In the next record, weight and/or vital sign comparison was missing, and the inmate was not oriented to all spheres without further evaluation. In the last record, an inmate did not have an EKG ordered as was indicated for multiple medical comorbidities.

Screen 3: In four records, a fasting plasma glucose (FPG) level was missing. In three records, there was no evidence of FPG levels in addition to the fecal occult blood test (FOBT). In two records, the prostate-specific antigen (PSA) was not completed in addition to the FPG and FOBT. In one record, there was no evidence of the FOBT and a CT indicated for those with an applicable smoking history. In the last record, there was no evidence of the required urinalysis.

Screen 4: In two records, abnormal urinalysis findings were not relayed to the doctor for further evaluation. In one record, an inmate with a change in cognitive orientation and vision was not referred to the clinician.

PREA

SCREEN QUESTION	COMPLIANCE SCORE				Compliance Percentage
	Total Applicable Records	YES	NO	N/A	
1 The Alleged Sexual Battery Protocol is completed in its entirety	8	6	2	0	75%
2 If the perpetrator is known, orders will be obtained from the clinician to complete the appropriate sexually transmitted infection (STI) testing	0	0	0	8	N/A
3 There is documentation that the alleged victim was provided education on STIs	2	2	0	6	100%
4 Prophylactic treatment and follow-up care for STIs are given as indicated	1	1	0	7	100%
5 Pregnancy testing is scheduled at the appropriate intervals for inmates capable of becoming pregnant	0	0	0	8	N/A
6 Repeat STI testing is completed as required	2	0	2	6	0%
7 A mental health referral is submitted following the completion of the medical screening	8	4	4	0	50%
8 The inmate is evaluated by mental health by the next working day	8	7	1	0	88%
9 The inmate receives additional mental health care if he/she asked for continued services or the services are clinically indicated	1	0	1	7	0%

PREA Discussion:

Screen 6: In one record, laboratory testing was not documented. In the second record, initial laboratory testing was completed following the PREA incident; however, there was no evidence that repeat testing occurred as indicated.

Screen 7: In four records, the referral from physical health staff erroneously indicated that mental health staff had seven days to interview the inmate. Department policy requires that this evaluation be completed the next working day.

Screen 9: In this record, an inmate with a history of mental health treatment including psychotropic medication, requested further treatment after a PREA incident. He allegedly was held at knife point and required to perform oral sex on another inmate. Documentation did not include a referral to psychiatry or a clinical rationale as to why the inmate was not referred. Additionally, the clinician wrote that no follow-up was indicated, and the inmate did not receive the therapy or counseling services he requested.

5	Medical isolation room(s) have negative air pressure relative to other parts of the facility	1	0	0	100%

Inmate Housing Areas

	SCREEN QUESTION	COMPLIANCE SCORE			Compliance Percentage
		YES	NO	N/A	
1	Living areas, corridors, day rooms and general areas are clean and organized	1	0	0	100%
2	Sinks and toilets are clean and operational	0	1	0	0%
3	Hot and cold water are available for showering and handwashing	1	0	0	100%
4	Over-the-counter medications are available and logged	1	0	0	100%
5	Procedures to assess medical and dental sick call are posted in a conspicuous place	1	0	0	100%
6	First-aid kits are present in housing units	1	0	0	100%

Physical Health Systems Discussion:

Screen 17: Inoperable or leaking toilets and/or sinks were noted in all four dorms toured. In total, 17 toilets and sinks were found to need repair. In most cases, work orders and not been submitted for the needed repairs.

Pharmacy

SCREEN QUESTION	COMPLIANCE SCORE			Compliance Percentage
	YES	NO	N/A	
1 All narcotics are securely stored and a count is conducted every shift	1	0	0	100%
2 Out-of-date controlled substances are segregated and labeled	0	0	1	N/A
3 The institution has an established emergency purchasing system to supply out-of-stock or emergency medication	1	0	0	100%
4 The pharmacy area contains adequate space, security, temperature, and lighting for storage of inventories and work activities	1	0	0	100%
5 Expired, misbranded, damaged or adulterated products are removed and separated from active stock no less than quarterly	1	0	0	100%
6 A check of 10 randomly selected drug items in nursing areas reveals no expired medications	1	0	0	100%
7 There is a stock level perpetual inventory sheet for each pharmaceutical storage area and ordering and stock levels are indicated	1	0	0	100%

Psychiatric Restraint

SCREEN QUESTION	COMPLIANCE SCORE			Compliance Percentage
	YES	NO	N/A	
1 All equipment is available and in working order	1	0	0	100%
2 There is appropriate restraint equipment for the population in all necessary sizes	1	0	0	100%
3 All interviewed staff are able to provide instructions on the application of restraints	1	0	0	100%

Self-Injury/Suicide Prevention

	SCREEN QUESTION	COMPLIANCE SCORE			Compliance Percentage
		YES	NO	N/A	
1	The suicide/self-harm observation cells in the infirmary and observation cells in the special housing units are appropriately retrofitted and safe	1	0	0	100%
2	A sufficient number of suicide-resistant mattresses, blankets and privacy wraps are available for each certified cell	1	0	0	100%

Special Housing

	SCREEN QUESTION	COMPLIANCE SCORE			Compliance Percentage
		YES	NO	N/A	
1	Confinement rounds are conducted weekly	1	0	0	100%
2	A tool is available in the special housing unit to cut down an inmate who has attempted to hang him/herself	1	0	0	100%

Mental Health Services

	SCREEN QUESTION	COMPLIANCE SCORE			Compliance Percentage
		YES	NO	N/A	
1	Adequate space is available for the mental health department	1	0	0	100%
2	The inpatient unit environment is safe and conducive to providing mental health care	0	0	1	N/A
3	Outpatient group therapy is offered	1	0	0	100%

Interview Summaries

INMATE INTERVIEWS

Twelve inmates agreed to participate in interviews. Overall, inmates were complementary of medical services and indicated that sick call and emergency care was administered timely. Inmates denied difficulty in obtaining medication for physical health needs. Several inmates reported that they have medical issues that are not being addressed. Inmates reported long wait times for the preventative dental plan but were satisfied with these services once they were initiated.

Overall, inmates expressed satisfaction with mental health services and were particularly complementary of the mental health professional (MHP). They indicated that individualized treatment has been beneficial in helping them adjust to the prison environment. Several inmates reported that wait times for psychiatric consultations have been long.

MEDICAL STAFF INTERVIEWS

Five members of the medical team participated in interviews. All were knowledgeable about policies and procedures directing the provision of health care at this institution. Staff was aware of emergency plans and reported that security staff is cooperative and helpful when assistance is required. Most interviewees indicated that they needed new equipment, specifically a stretcher, and more consistent internet access.

MENTAL HEALTH STAFF INTERVIEWS

There is one MHP position at Taylor CI; however, staff was out on military leave. Coverage was provided by counselors from neighboring institutions, but none were on-site during the survey; therefore, no one was available to interview.

SECURITY STAFF INTERVIEWS

Three correctional officers were interviewed. Security staff appeared knowledgeable about policies pertaining to the sick call process and the accessing of emergency and routine medical care. They correctly verbalized procedures that pertain to inmates being placed in special housing. They described a good working relationship with medical and mental health staff.

All items that scored below 80% or were identified as non-compliant should be addressed through the corrective action process. Within 30 days of receiving the final copy of the CMA’s survey report, institutional staff must develop a corrective action plan (CAP) that addresses the deficiencies outlined in the report and in-service training should be conducted for all applicable findings. The CAP is then submitted to the Office of Health Services (OHS) for approval before it is reviewed and approved by CMA staff. Once approved, institutional staff implement the CAP and work towards correcting the findings.

Usually, four to five months after a CAP is implemented (but no less than three months) the CMA will evaluate the effectiveness of the corrective actions taken. Findings deemed corrected are closed and monitoring is no longer required. Conversely, findings not corrected remain open. Institutional staff will continue to monitor open findings until the next assessment is conducted, typically within three to four months. This process continues until all findings are closed.

Recommendations

In addition to the needed corrective actions described above and based upon the comprehensive review of the physical, mental health, and administrative services at TAYCI, the CMA makes the following recommendations:

- Retrain nursing staff on policies and procedures associated with the provision of periodic screenings.
- Ensure that nursing staff is appropriately trained on how to respond to PREA incidents.
- Ensure that inmates enrolled in the endocrine clinic receive the necessary specialized care.
