THIRD ON-SITE CORRECTIVE ACTION PLAN ASSESSMENT

of

RECEPTION AND MEDICAL CENTER

for the

Physical and Mental Health Survey Conducted October 14-15, 2015

CMA STAFF

Jane Holmes-Cain, LCSW Lynne Babchuck, LCSW

CAP Assessment Distributed on March 20, 2017

CAP Assessment of Reception and Medical Center

I. Overview

On October 14-15, 2015, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Reception and Medical Center (RMC). The survey report was distributed on November 23, 2015. In December 2015, RMC submitted and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the October 2015 survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days.

On February 9, 2016 CMA staff requested access to monitoring documents to assist in determining if an on-site or off-site assessment should be conducted. Based on the documents provided, CMA staff conducted an on-site CAP assessment on April 6-7, 2016 to evaluate the effectiveness of corrective actions taken by institutional staff. The CAP closure files revealed sufficient evidence to determine that 10 of 19 physical health findings and 20 of 47 mental health findings were corrected on the Main Unit. Additionally, 21 of 22 physical health findings and 5 of 10 mental health findings were corrected on the West Unit.

On September 21, 2016, CMA staff requested access to monitoring documents to assist in determining if an on-site or off-site assessment should be conducted. Based on the documents provided, an on-site CAP was conducted on October 19, 2016 to evaluate the effectiveness of corrective actions taken by institutional staff. The CAP closure files revealed sufficient evidence to determine that 7 of 9 physical health findings and 12 of 27 mental health findings were corrected on the Main Unit. Additionally, 1 of 1 physical health findings and 2 of 5 mental health findings were corrected on the West Unit.

On February 6, 2017, CMA staff requested access to monitoring documents to assist in determining if an on-site or off-site assessment should be conducted. Based on the documents provided, an on-site CAP was conducted on March 9, 2017 to evaluate the effectiveness of corrective actions taken by institutional staff. Items II and III below describe the outcome of the CMA's evaluation of the institution's efforts to address the survey findings.

II. Physical Health Assessment Summary

A. Main Unit

The CAP closure files revealed sufficient evidence to determine that 2 of the 2 physical health findings were corrected. All physical health findings are closed.

Finding	CAP Evaluation Outcome
GASTROINTESTINAL CLINIC	PH-4 CLOSED
PH-4: In 6 of 12 applicable records (15 reviewed), there was no evidence of hepatitis A and/or B vaccination or refusal.	Adequate evidence of in-service training and documentation of correction were provided to close PH-4.

Finding	CAP Evaluation Outcome
DENTAL SYSTEMS	PH-11 CLOSED
PH-11: There was no evidence that all necessary equipment was working and available.	Adequate documentation of correction was provided to close PH-11.

B. West

All physical health findings were closed on the second CAP assessment.

III. Mental Health Assessment Summary

A. Main Unit

The CAP closure files revealed evidence to determine that 12 of 15 mental health findings were corrected. Three mental health findings will remain open.

Finding	CAP Evaluation Outcome
SELF-HARM OBSERVATION STATUS (SHOS)	MH-1 OPEN
A comprehensive review of 9 Self-harm Observation Status (SHOS) admissions revealed the following deficiencies:	Adequate evidence of in-service training was provided, however a review of randomly selected records indicated an acceptable level of compliance had not been met. MH-1
MH-1: In 2 records, documentation did not indicate the inmate was observed at the frequency ordered by the clinician.	will remain open. MH-3 CLOSED
MH-3: In 2 records, not all entries were dated, timed, signed and/or stamped.	Adequate evidence of in-service training and documentation of correction were provided to close MH-3.

Finding	CAP Evaluation Outcome
SPECIAL HOUSING	MH-8 OPEN
A comprehensive review of 12 records of inmates in special housing revealed the following deficiencies: MH-8: In 3 of 8 applicable records, the mental status exam (MSE) was not completed within the required time frame.	Adequate evidence of in-service training was provided, however a review of randomly selected records indicated an acceptable level of compliance had not been met. MH-8 will remain open.
MH-9: In 2 of 10 applicable records, outpatient treatment (psychiatry, case management and individual therapy) was not continued as indicated on the ISP.	MH-9 CLOSED Adequate evidence of in-service training and documentation of correction were provided to close MH-9.

Finding	CAP Evaluation Outcome
OUTPATIENT PSYCHOTROPIC MEDICATION PRACTICES MH-28: In 3 of 4 applicable records (12 reviewed), there was no "Refusal of Health Care Services" (DC4-711A) after 3 consecutive medication refusals or 5 in one month.	MH-28 CLOSED Adequate evidence of in-service training and documentation of correction were provided to close MH-28.

Finding	CAP Evaluation Outcome
OUTPATIENT MENTAL HEALTH SERVICES	MH-33, MH-34, MH-35, MH-36, MH-37, MH-38, & MH-39 CLOSED
A comprehensive review of 15 outpatient records revealed the following deficiencies:	Adequate evidence of in-service training and documentation of correction were provided to close
MH-33: In 6 of 12 applicable records, the ISP was not updated within 14 days of arrival.	MH-33, MH-34, MH-35, MH-36, MH-37, MH-38, & MH-39.

Finding	CAP Evaluation Outcome
MH-34: In 5 records, the biopsychosocial assessment (BPSA) was not present in the medical record.	
MH-35: In 2 of 2 applicable records, the BPSA was not approved by the MDST within 30 days.	
MH-36: In 2 of 3 applicable records, the ISP was not completed within 30 days after assignment of S2 or S3 grade.	
MH-37: In 4 records, the ISP did not address all required information.	
MH-38: In 3 of 13 applicable records, there was no documentation that the inmate received the services listed in the ISP.	
MH-39: In 1 of 5 applicable records, counseling was not provided for inmates with a psychotic disorder at least every 30 days.	

Finding	CAP Evaluation Outcome
RECEPTION PROCESS MH-42: In 2 of 8 applicable records (10 reviewed), inmates awaiting transfer to a permanent institution who remained at the reception center longer than 30 days did not receive limited case management services.	MH-42 CLOSED Adequate evidence of in-service training and documentation of correction were provided to close MH-42.

Finding	CAP Evaluation Outcome
AFTERCARE PLANNING	MH-44 & MH-45 CLOSED
A comprehensive review of 10 records of inmates within 180 days end of sentence (EOS) revealed the following deficiencies:	Adequate evidence of in-service training and documentation of correction were provided to close MH-44 & MH-45.
MH-44: In 2 records, aftercare plans were not addressed on the ISP.	MH-46 OPEN
MH-45: In 4 of 7 applicable records, a "Summary of Outpatient Mental Health Care" (DC4-661) was not completed within 30 days of EOS.	Adequate evidence of in-service training was provided, however a review of randomly selected records indicated an acceptable level of compliance had not been met. MH-46
MH-46: In 1 of 1 applicable record, a social security benefit application was not forwarded between 45 and 30 days EOS for eligible inmates.	

B. West

The CAP closure files revealed evidence to determine that 1 of 3 mental health findings were corrected. Two mental health findings will remain open.

Finding	CAP Evaluation Outcome
OUTPATIENT PSYCHOTROPIC MEDICATION PRACTICES MH-6: In 6 of 8 applicable records (12 reviewed), the Abnormal Involuntary Movement Scale (AIMS) was not administered within the appropriate time frame or was not present in the medical record.	MH-6 CLOSED Adequate evidence of in-service training and documentation of correction was provided to close MH-6.

Finding	CAP Evaluation Outcome
AFTERCARE PLANNING	MH-9 & MH-10 OPEN
A comprehensive review of 2 records of inmates within 180 days end of sentence (EOS) revealed the following deficiencies: MH-9: In 1 of 2 applicable records, the "Summary of Outpatient Mental Health Care" (DC4-661) was not completed within 30 days of EOS.	Adequate evidence of in-service training was provided, however institutional monitoring was inadequate, therefore an acceptable level of compliance could not be established. MH-9 & MH-10 will remain open.
MH-10: In 1 of 1 applicable record, assistance with social security benefits was not provided at 90 days EOS for the eligible inmate.	

IV. Conclusion

Physical Health Main Unit

All physical health portions are closed.

Physical Health West Unit

All physical health portions are closed.

Mental Health Main Unit

The following mental health findings will remain open: MH-1, MH-8, & MH-46. All other mental health portions will close.

Mental Health West Unit

The following mental health findings will remain open: MH-9 & MH-10 will remain open. All other mental health portions will close.

Until such time as appropriate corrective actions are undertaken by RMC staff and the results of those corrections reviewed by the CMA, this CAP will remain open. As some of the necessary steps to correct findings require further institutional monitoring, closure may take as long as three months. Follow-up assessment by the CMA will most likely take place through an off-site visit but the option remains open to complete an on-site assessment.
