Distributed on January 17, 2025

**I. Overview**

On September 13-15, 2022, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Tomoka Correctional Institution (TOMCI). The survey report was distributed on October 25, 2022. On December 21, 2022, TOMCI submitted, and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the TOMCI survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days. Items II and III below describe the outcome of the CMA’s evaluation of the institution’s efforts to address the survey findings.

**Summary of CAP Assessments for Tomoka Correctional Institution**

CAP #	CAP Assessment Date	Assessment Location	Total # Survey Findings	Total # Open Findings	Total # Findings Closed
1	June 13, 2023	Off-site	40	19	21
2	October 9, 2023	Off-site	19	10	9

**II. Physical Health Assessment Summary**

The CAP closure files revealed sufficient evidence to determine that the remaining physical health finding was not corrected. One physical health finding remains open.

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
<b>Periodic Screenings</b> Screen 3: All diagnostic tests are completed prior to the periodic screening encounter.					X

### **III. Mental Health Assessment Summary**

#### **A. Main Unit**

All mental health findings are closed.

### **IV. Conclusion**

Until appropriate corrective actions are undertaken by TOMCI staff, and the results of those corrections reviewed by the CMA, this CAP will remain open. As some of the necessary steps to correct findings require further institutional monitoring, closure may take as long as three months. Follow-up assessment by the CMA will most likely take place through an off-site evaluation.
