**I. Overview**

On August 9-10, 2023, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Taylor Correctional Institution (TAYCI). The survey report was distributed on September 22, 2023. In October 2023, TAYCI submitted, and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the TAYCI survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days. Items II and III below describe the outcome of the CMA’s evaluation of the institution’s efforts to address the survey findings.

**Summary of CAP Assessments for Taylor Correctional Institution**

### **III. Mental Health Assessment Summary**

There were no findings as a result of the survey.

### **IV. Conclusion**

All findings as a result of the August 2023 survey are closed and no further action is required on this CAP. The CMA appreciates the efforts to improve services and documentation at this institution and continues to encourage ongoing quality improvement activities to ensure that the proper provision of health care services is maintained.
