

**SECOND CORRECTIVE ACTION PLAN
ASSESSMENT**

of

ZEPHYRHILLS CORRECTIONAL INSTITUTION

for the

Physical and Mental Health Survey
Conducted February 7-9, 2023

CMA STAFF

Jane Holmes-Cain, LCSW

Distributed on November 30, 2023

I. Overview

On December 6-8, 2022, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Zephyrhills Correctional Institution (ZCI). The survey report was distributed on January 30, 2023. In March, 2023 ZCI submitted and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the ZCI survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than 90 days. Items II and III below describe the outcome of the CMA’s evaluation of the institution’s efforts to address the survey findings.

IV. Conclusion

Until appropriate corrective actions are undertaken by ZCI staff and the results of those corrections reviewed by the CMA, this CAP will remain open. As some of the necessary steps to correct findings require further institutional monitoring, closure may take as long as three months. Follow-up assessment by the CMA will most likely take place through an off-site evaluation.
